Meeting Notes —04/13/2022

- Mockup A was determined to be the favorite of the two options.

- The main improvement that can be made to Mockup A is the order of the tabs — mainly that the sources tab should be at the bottom of the screen rather than at the top of the screen.

- Another change offered was the combining of the "past" and "origin" tabs into a single tab title "past."

- The absence of an "origin" tab leave room for a dedicated photo gallery tab that can feature pictures of kei cars in order from oldest to newest.

- The use of Japan's highways was determined to be a good idea, but the narrow streets of Japan would be a great way to display the need of the small kei cars for such narrow streets.

- A way for the user to click through the pages from "origin" — "future" would be a great way to allow users to experience this page.
